

[Annex 8]

Symbols for Items Applicable to Safety Management Certification Standard (HACCP) (Related to Article 27)

The Safety Management Certification Standard(HACCP) application symbol or signboard may be used by applying various colors and sizes suitable for the characteristics and packaging materials or design of products and businesses referring to the following basic symbols(If food or livestock products are required to be distinguished, they may be marked as "food safety management certification or livestock safety management certification" or "safety management certification for food or safety management certification for livestock products" inside the symbol).

A. The HACCP symbol

Figure 1.
slaughterhouses, milk collection businesses
and farms

Figure 2.
Other HACCP-applied establishments
and businesses

Figure 3.
Integrated HACCP-certificated Livestock
business

※ The colour and size may be adjusted to suit the place of use by the person who intends to use it, but the design shall be the same as this sample.

B. Signboard form of applied HACCP-certificated establishment, business and farm

figure 1. Slaughterhouses, Milk collection businesses and Farms

Certificate No. ○○ (Certification number can be omitted)	
	the Safety Management Certification Standards(HACCP) Applied workplace(establishment · farm)
○○○(Name of Establishment or Farm)	

figure 2. Other HACCP-applied establishments and businesses

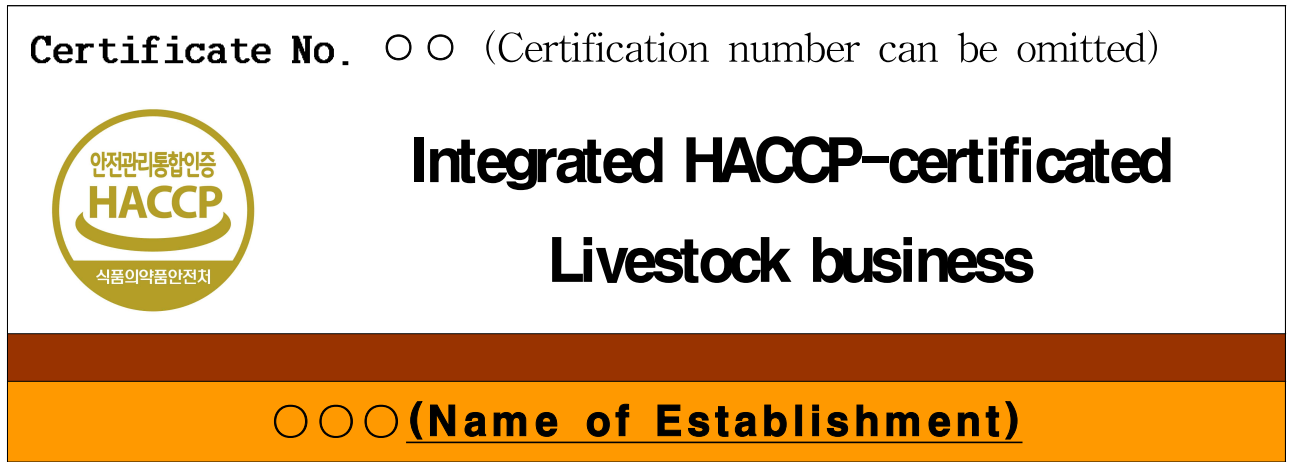

Certificate No. ○○ (Certification number can be omitted)	
	the Safety Management Certification Standards(HACCP) Applied workplace(establishment)
○○○(Name of Establishment)	

figure 3. Integrated HACCP-certificated Livestock business

※ The design and aspect ratio(1:2) shall be as large as possible like this sample, although the intended owner may resize the signboard to the place of use.
